## **DETAILED ACTION**

### ***Response to Amendment***

1. The amendment and remarks filed January 23, 2008, are noted with appreciation.
2. Claims 16-27 remain pending.

### ***Response to Arguments***

3. The rejection of claim 26 in the prior Office action, paragraph 5, is withdrawn in view of the amendment.
4. Applicant's arguments filed January 23, 2008, with respect to the rejections under 35 USC 103(a), have been fully considered but they are not persuasive.
5. As noted in the prior Office action, paragraph 11B, Graham teaches thermal curing. Thermal curing involves irradiation with at least heat waves (i.e., thermal energy). Consequently, amending the claims to recite curing "by irradiation" broadly is not sufficient to overcome the art of record. As noted in the prior Office action, paragraph 11B, Graham neither teaches nor suggests systems curable by *actinic* radiation (i.e., UV/e-beam).

### ***Claim Rejections - 35 USC § 103***

6. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

7. This application currently names joint inventors. In considering patentability of the claims under 35 U.S.C. 103(a), the examiner presumes that the subject matter of the various claims was commonly owned at the time any inventions covered therein were made absent any evidence to the contrary. Applicant is advised of the obligation under 37 CFR 1.56 to point out the inventor and invention dates of each claim that was not commonly owned at the time a later invention was made in order for the examiner to consider the applicability of 35 U.S.C. 103(c) and potential 35 U.S.C. 102(e), (f) or (g) prior art under 35 U.S.C. 103(a).

**8. Claims 16, 19-21, and 23-26, are rejected under 35 U.S.C. 103(a) as being unpatentable over Graham (US 4,002,599 A) in view of Gardner (US 4,808,652 A) and Maddox et al. (US 2002/0132059 A1).**

A. These claims are rejected for the reasons set forth under this heading in the prior Office action.

B. These claims remain rejected in view of the amendment as explained above.

**9. Claims 17 and 18 are rejected under 35 U.S.C. 103(a) as being unpatentable over Graham, Gardner, and Maddox et al., as applied to claim 16 above, further in view of Klingier (EP 0 261 890 A2).**

A. These claims are rejected for the reasons set forth under this heading in the prior Office action.

B. These claims remain rejected in view of the amendment as explained above.

***Allowable Subject Matter***

10. Claims 22 and 27 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

11. The following is a statement of reasons for the indication of allowable subject matter: The reasons remain the same as set forth under this heading in the prior Office action.

***Conclusion***

12. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
